

Monday, December 19th

09.00 -- 10.00	Registration	
10.00 -- 11.00	<u>Manfred Krifka</u> More on approximative number words	
11.15 – 11.45	<u>Ido Ben-Zvi</u> Dynamic Situations: Accounting for Dowty's Inertia Notion Using Dynamic Semantics	<u>Julie Hunter & Nicholas Asher</u> A Presuppositional Account of Indexicals
11.45 – 12.15	<u>Andreas Haida</u> Dynamic Wh-Terms	<u>Luisa Martí</u> Donald Duck is back, and he speaks Spanish
12.15 – 12.45	<u>Philippe Schlenker</u> Transparency: An Incremental Theory of Presupposition Projection	<u>Cécile Meier</u> The Compositional Semantics for locatives revisited
14.00 – 14.30	<u>Scott Grimm</u> Agency and Case: A lattice-based framework	<u>Richard Breheny</u> Exhaustivity, Homogeneity and Definiteness
14.30 – 15.00	<u>Antonia Rothmayr</u> The helping-effect of dative case	<u>Sivan Sabato & Yoad Winter</u> Against Partitioned Readings of Reciprocals
15.30 -- 16.00	<u>Reut Tsarfaty</u> Connecting Causative Constructions and Aspectual meanings: A Case Study from Semitic Derivational Morphology	<u>Magdalena Schwager</u> Exhaustive Imperatives
16.00 – 16.30	<u>Christopher Piñón</u> Determiners in aspectual composition	<u>Ventsislav Zhechev & Sveta Krasikova</u> Scalar Use of 'Only' in Conditionals
17.00 -- 18.00	<u>Lawrence S. Moss</u> Natural Language, Natural Logic and Natural Deduction	

Tuesday, December 20th

09.00 -- 10.00

[Gilad Ben Avid & Nissim Francez](#)

Proof-theoretic semantics for a syllogistic fragment

10.00 – 10.30

[Friederike Moltmann](#)

Comparatives without Degrees: A New Approach

[Michael Franke](#)

How and how not to employ discourse relations to account for pseudo-imperatives

11.00 – 11.30

[Rick Nouwen](#)

Monotone Amazement

[Tatjana Scheffler](#)

Syntax and Semantics of Causal denn in German

11.30 – 12.00

[Doris Penka](#)

'Almost': A test?

[Yurie Hara](#)

Contrastives and Gricean Principle

12.00 – 12.30

[Dag Westerståhl & Stanley Peters](#)

Semantics for Possessive Determiners

[Torgrim Solstad](#)

Word Meaning, Unification and Sentence-Internal Pragmatics

Workshop on Language and Learning

14.00 – 15.30

[James Cussens](#)

Principles and Implementation of Inductive Parsing

[Jacqueline van Kampen](#)

Locality and the order of acquisition steps

16.00 – 17.30

[Makoto Kanazawa](#)

Semantics-Driven Learning of Lexicalized Grammars

[Claire Nedellec](#)

Semantics learning from corpora and background knowledge

Beth Evening Lecture

20.00 -- 21.00

[Hannes Leitgeb](#)

The Logical Structure of Cognition.

Lessons from Carnap's Logical Structure of the World

Wednesday, December 21st

09.00 -- 10.00

[Sigrid Beck](#)

A Second Time and Again

10.00 – 10.30

[Petra Hendriks, Helen de Hoop &
Monique Lamers](#)

Asymmetries in language use reveal
asymmetries in the grammar

[Tim Fernando](#)

Comic relief for anankastic conditionals

11.00 – 11.30

[Daniel Hardt](#)

Inference, Ellipsis and Deaccenting

[Theo M.V. Janssen](#)

IF logic as a strategic game

11.30 – 12.00

[Jacques Jayez & Lucia Tovenà](#)

When 'Widening' is too Narrow

[Chris Fox & Shalom Lappin](#)

Achieving Expressive Completeness and
Computational Efficiency with
Underspecified Scope Representations

12.00 – 12.30

[Mats Rooth](#)

Scope Disambiguation by Ellipsis and
Focus without Scope Economy

[Reinhard Muskens](#)

Synonymy, Common Knowledge, and
the Social Construction of Meaning

Workshop on Semantic Universals

14.00 – 15.30

[Johan van der Auwera](#)

Prohibitives: why most languages are not like Dutch

[David Gil](#)

Association: A Cross-Linguistic Experiment

16.00 – 17.30

[Helen de Hoop](#)

Case and strength

[Ed Keenan](#)

How much logic is built into natural language?
